

ZAR Exterior Stains and Deck Care products make exterior wood surfaces look attractive while protecting them from Mother Nature's harshest elements. These are real Case Histories from actual customers. Notice how ZAR Deck and Siding Stains are used on many different surfaces.

ZAR® DECK & SIDING CASE HISTORIES

Case History #1

NEW YEAR-ROUND LAKE HOUSE

This year-round lake house was built to replace a small vacation family cabin on Grand Lake in Rockville, Minnesota. The homeowner's original intent was to coat the SmartBoard siding with paint. Because of the 15 year warranty, they decided to go with ZAR Solid Color Deck and Siding Stain. They loved how it went on and covered but still let the natural grain of the textured board show through. The job took 21 gallons; the house color is a custom tint and the trim is Sierra Redwood with Butternut gable ends.

Case History #2

JUNGLE GYM

Nothing is a bigger eyesore than a faded jungle gym in a landscaped yard. This jungle gym was five years old and had never been stained or sealed. It was faded and weathered to a dull gray color. The first step was to clean the surface with ZAR Deck & Siding Cleaner and then a coat of ZAR Clear Wood Sealer & Natural Toner tinted to Roasted Almond was applied. Now, what was a blemish in the landscaping is a true bloom.

Case History #3

BEACH HOUSE

This beach home of David Tranger, owner of Beaver Dam Hardware, Point Pleasant, NJ has been using ZAR Exterior Deck and Siding Stain in Navajo White since 1997 and is extremely pleased by the durability of the coating which sits directly at the water's edge in Nags Head, North Carolina.

Case History #4

COUNTRY CHARM HOUSE

This was the first job in Kentucky using ZAR Clear Wood Sealer and Natural Toner when first introduced. The customer had used another product which was discontinued so he reached out to Nicholasville Paint for an alternative. The dealer decided to order in the ZAR Clear Wood Sealer and Natural Toner for this particular customer, the job took 20 gallons which was tinted to 760 Natural Cedar. It was an easy do-it-yourself project. The customer applied the Sealer using a backpack pump sprayer and back brushed.

Case History #5

CABIN IN THE WOODS

John Huston of B & G Lumber, Elizabethtown, PA used ZAR Solid Color Deck and Siding Stain in Beechwood Gray on his block walled cabin, in Waterville, PA. This cabin was built in 1961, it is used for vacation. He thought he would give it a facelift and thought the perfect product would be ZAR Solid Color Deck and Siding Stain because of the excellent properties over wood, metal and masonry and its reputation. John used two coats and applied with brush and roller. He dressed it up by painting the shutters with Sierra Redwood.

Case History #6

MISSOURI DECK

Ken Guillory of De Soto, MO coated his deck with a Cedar toner after its completion in 2003. He was not particularly happy with the brand he chose, it did not hold up to the extreme sunlight the deck is exposed to. The following year, Ken was working at Cooper Paint and Decorating in Ellisville, MO and decided to strip the deck and put another coat of stain on it. He power washed and applied ZAR Deck and Siding Semi-Transparent Stain. In the summer of 2009, happy with the ZAR products, he again prepped the deck for another coat of stain and applied ZAR Deck and Siding (Natural Honey Toner) using a 4-inch brush for the deck boards and top rails and a 1 1/2 - inch brush for the spindles.

So pleased with the ZAR products, he painted his Cedar siding with Navajo White and has become a life-long customer.
